OFFICE OF EXPORT CONTROL POLICY AND COOPERATION (NA-242)

NA-242: Technical Lead on Nuclear Technology for USG

Functional Overview

Domestic Controls

Other

- Support to DHS
 - CBP
 - ICE
- U.S. Coast Guard

DOE Complex

- Surplus Equipment
- Nuclear Software
 - CRADAs
 - NCI/IPP
- NP Seminar Series
 - ECI
- NA-242 Web-Site

Industry

- Part 810 Authorizations
- Munitions
- Dual-Use
- NRC Assurances

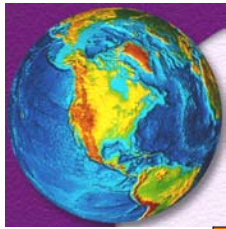

International Controls

Multilateral

- NSG
 - Zangger Cmtee
- Wassenaar Arrgmt.
- Add'l Protocol
- MTCR/AG

INECP

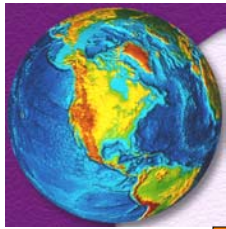

- Russia/NIS
- Middle East/SAsia
 - East Asia
- Latin America
- Southern Europe

Licensing Team

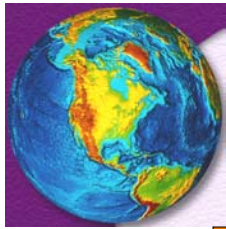

Areas of Responsibility

- Industry
 - Part 810 authorizations
 - Dual-use license reviews
 - Chemical, Biological, Nuclear, Missile, and electronic devices / fabrication equipment
 - Munitions license reviews
 - Nuclear-related explosives and hardware
 - Assurance requests for NRC exports
- Export Controlled Information
- “Deemed Exports”
- DHS/CBP & ICE & U.S. Coast Guard Support
- DOE Complex
 - Maintain Sensitive Subjects/Countries Lists
 - Provide Guidance on:
 - Foreign travel by DOE scientists and engineers
 - Foreign national visits and assignments
 - International agreements (IPP, NCI, MPC&A, etc.)
 - Transfer of surplus property
 - DOE publications
 - Review transfer of nuclear software
 - Provide NP Seminar Series
 - Support “Pit-out” reviews

Multilateral Team – Areas of Responsibility

- Multilateral Regime Support
 - Nuclear Suppliers Group
 - NPT Exporters Committee (Zangger)
 - International Atomic Energy Agency (IAEA)
 - Missile Technology Control Regime (MTCR)
 - Wassenaar & AG support
 - NPT Review Conference – 2005
- Other Issues
 - Export Control Workshops
 - Bilaterals
 - IAEA Additional Protocol
 - IAEA Code of Conduct for Radioactive Sources
 - Interdiction (President's Proliferation Security Initiative (PSI))
 - Sanctions
 - NISS (NSG Information Sharing System)
- Technical Projects
 - Economic Globalization
 - Machine Tools
 - SNET List Review
 - Technical Review Group
 - Commercialization of DOE lab technology (CRADAs)
 - Stable Isotope Separation
 - Graphite Controls
 - Proliferation Research and Analysis (PRAP) Projects

International Export Control Program (INECP) Team – Areas of Responsibility

Provide training and assistance to foreign partners
around the globe by:

- Developing effective export control licensing processes
- Developing foreign industry compliance in coordination with foreign governments through awareness training of exporters of controlled equipment, materials, and technology on national and international requirements
- Helping foreign customs officials to recognize controlled dual-use commodities
- Supporting development of tools of export control:
 - Document management systems and websites
 - Technical guides for licensers and enforcement officials
 - Publications
 - Dual-use material analyzers
 - Remote inspection systems
